ISBN 979-10-92241-01-3

The sea horse has found in nature's parameters an extraordinarily profound synthesis and has embraced them as its own. It has grown according to a well-defined path and in the following pages it divulges its secrets little by little. There are so many of them, it is little wonder that the alchemists used it as a symbol to illustrate some of their messages. Tradition, mathematics, mythology, medicine, etc..., no science has been able to ignore it. Why? All will be revealed when you read this book

CONTENTS
